Goes Farther

A can of Calumet Baking Powder will make more pies, cakes, biscuits, muffins, etc. than a can of most other brands.

It lasts longer—goes farther because it contains more than the ordinary leavening strength—therefore you use less.

When a recipe calls for two teaspoons of baking powder, use two level teaspoons of Calumet, the results will always be the same—perfectly raised bakings—remember this when you buy baking powder and don't forget that Calumet is the economic buy because it goes farther.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

SHIP SUBSIDY BILL IS URGED QUICK PASSAGE

National Foreign Trade Commission Told That Measure Is of Great Importance.

(By Associated Press) PHILADELPHIA, May 12.—Prompt passage of the ship subsidy bill now pending in congress and subsequent abolition of the United States shipping board were urged by William J. Conlen, of Philadelphia, proctor in admiralty, in an address before the National Foreign Trade convention here yesterday.

Mr. Conlen also recommended that permission be given to railroads to again own and operate steamship lines in foreign trade and urged that American navigation laws be amended and clarified.

Of the ship subsidy bill he said: "The bill requires prompt action. Further delay of our shipping situation spells disaster." Mr. Conlen declared that the United States shipping board was now called upon to formulate proposals to Congress for putting American shipping once and for all upon a sound working basis and at the same time to dispose of the vast quantity of tonnage on hand to a people who want to know what congress intends to do before they buy the shipping board's vessels.

In the midst of formulating his plans for the future, he said, the shipping board finds itself with a plan on hand for immediate action calculated to destroy its own constructive ideas.

"It is no wonder that serious consideration is given to the thought that perhaps the best solution of all would be the complete abolition of the board," Mr. Conlen added.

"We have no need in America of a supervisory board for the trade of private merchants. We have no need of a body with ex-regulatory powers which will settle into mere routine and fetter shipping with red tape."

"It is certain that general assent is now given to the proposition that the sooner the board and its allied corporation (the fleet corporation) cease to function as owners and operators, the quicker will the results now sought to be obtained manifest themselves."

Mr. Conlen referred to "the blight which fell on American shipping activities in the Pacific," in consequence of the abolishment of special rates on through shipments and legislation divorcing rail and water transportation. He declared that it was high time that railroads be accorded the right to own and operate steamship lines in foreign trade.

NO ILLEGAL BONDS OR NOTES ISSUED

(By Associated Press) WASHINGTON, May 12.—The reports of the special treasury committee which made an inventory of supplies and equipment of the bureau of printing and engraving, following the recent reorganization of the bureau's personnel, is understood to be a substantial vindication of the declaration of the treasury officials that no material output of illegal bond, note stamp issues has occurred within recent years.

The report will record, however, a discrepancy of some fifty sheets which was found when the check was made of special paper used in the bureau for the printing of bonds and notes.

No order of job printing is too large or too small for The Bonanza to fill. We employ only the most skillful and artistic printers. Prompt service assured.

MARRY A MILLION SURE THIS TIME
